

1 434. Plaintiff also seeks that this good court to

2
3 "*Officially*" **Notify & Refer** these matter for federal
4 investigation, as is required by **18 U.S.C. § 3057(a)** ,
5 to a fully independent Special Prosecutors and/ or OIG,
6 Public Integrity and/or other such agency as the court
7 would agree is necessary to effectuate justice.
8

9
10 435. Litigant intends to seek that the court take
11 Judicial Notice under **Fed.R.Civ.P 201** of the many Laws
12 that should have been applied to this case LONG ago.
13

14 436. Including, *but not limited to*, disqualification of
15 the parties of Paul Traub, MNAT and Barry Gold and/or
16 any other person, party, firm or likewise who would
17 work in concert with said parties to Obstruct Justice.
18

19 437. These requests include the fact that Tom
20 Petters Ponzi federal investigators and/or prosecutors
21 in Minnesota obviously have a vested interest in hiding
22 the fact that Marty Lackner was brother to Minnesota
23 Assistant U.S. Attorney and former head of the criminal
24 division J. Lackner. That, along with Traub untouchable
25 issues and Doug Kelley's working all sides is hollow.
26
27
28

1 438. Whereas, it is simple common sense that Tom
2
3 Petters should have, in his defense, pointed out Paul
4 Traub issues. That Traub's partner also works for the
5 Federal government (*Harold Bonacquist is listed by the*
6 *NY Supreme Court/State BAR as to be contacted via the*
7 *Philippines U.S. Embassy and/or Consulate General of*
8 *the to make an appointment with Bonacquist in Istanbul*
9 *where he works as lead counsel for the Consulate*
10 *General of the United States).*
11
12

13 439. Whereas, Tom Petters should have also, at the
14 barest of minimums, benefited from his jury knowing
15 those Traub issues, along with Marty Lackner and Larry
16 Reynolds laundering \$12 Billion while in WISTEC is not
17 a series of federal agencies/ agents connections to Tom
18 Petters that should be overlooked. For the questions
19 loom large on what benefits MN DOJ received, or items
20 did they know, while helping fleece such as Ritchie
21 Capital Management and/ use Tom Petters as the patsy.
22
23
24
25

26 440. Even Douglas Kelley himself states in the
27 PACER documentations "Traub **controlled** Petters Ponzi".
28

1 441. If Marty Lackner's purported suicide can be
2 Covered Up & Romney can run for POTUS and Cover Up the
3 eToys case and/or the Public Corruption Task Force can be shut
4 down, while EOUST resigns rather than protects!
5

6
7 442. Along with the issue of the corrupt Colm
8 Connolly having the unmitigated gall to come out and be
9 the Wheelers family attorney and post rewards for ALL
10 information to go to him - instead of elsewhere.
11

12 443. WHEREAS there's video evidence that Connolly's
13 Nemours Building was visited twice by Jack Wheeler
14 before he died.
15

16 444. Whereas it is plausible that, even if Colm
17 Connolly did not hit Jack Wheeler in the head, that
18 someone else "currently" with the DOJ and/or linked to
19 the list of Mercenaries that Bain certainly could
20 "meet" at any time, just saying hello to Blackwater
21 under Clear Channel Communication visitation excuses.
22

23 445. Hence, even if, *arguendo*, one says the odds
24 are a million, or even tens of millions to one, that
25 these acts are all linked. Then they ARE *possibly* LINKED~
26
27
28

1 446. Thus, plaintiff and other innocent parties are
2 entitled to extraordinary safeguards from autocrats.

3
4 447. Whereas it is readily apparent that the easy
5 way out for all these culpable parties from being held
6 accountable, is the riddance of the message/messenger.
7

8 448. Plaintiff pray for this relief and/or any
9 other structure the court may wish to assure justice.
10

11 **X ISSUES OF FEDERAL VENALITY MENACING & CONSEQUENTIAL**

12 449. Plaintiff recognizes that the array of
13 troubling matters mentioned herein are surreal; after
14 all - I've lived through them.
15

16 450. The incongruous banter from Stalwarts and
17 detractors claiming this is/ "was" an attack upon a
18 candidate is now moot. This has never been an issue of
19 politics; but for the fact that the Defendants would
20 utilize banter of such, in a manner Obstructive.
21
22

23 451. The larger issues of this Complaint, aside
24 from the complexities of mayhem and murder; are those
25 of readily apparent concerns of seditious nationally
26 significant and important acts of federal corruption.
27
28

1 452. It is both inexplicable and intolerable that

2
3 NOT ONE SINGLE FEDERAL AGENCY contacted and provided
4 the glaring evidences hereof; was willing to intervene.

5 453. Plaintiff went out of the way to stipulate
6 that the initial Protest and this 1st Amended Complaint
7 is submitted - Under Penalty of Perjury - so that any reviewer
8 would understand these allegations have verity.
9

10
11 454. It cannot be stated enough, until justice doth
12 finally come - that the corroboration of the charges
13 come **chiefly** from verifiable public court docket
14 records and/or federal archives irrefutable.
15

16
17 455. Therefore, if ANY of vast array of contentions
18 herein are true, as alleged; then the question that
19 looms large above all else is "How in the same hell have things
20 gotten so far out of control"?
21

22 456. Empirical analysis must begin by a thorough
23 review of the public servant recruitment fundamentals.
24 Our nations Laws are more than adequate. It is neither
25 "The Government", nor the Code & Rule of Law that is to
26 blame; but the infirmity inherent of humanity at issue.
27
28

1 457. One counsel whom plaintiff sought to engage,
2
3 was denied her chance to do the right thing, due to the
4 economics of major law firm models. You simply don't go
5 after Above the Law firms like Goldman Sachs and Bain
6 Capital if you desire to have a future in big law.
7

8 458. In similar fashion, one does not blow the
9 whistle on federal government and/or dare to serve the
10 public with honor, distinction and integrity above the
11 norm; unless you desire to wind up facing the same fate
12 as former Assistant U.S. Attorney Rick Convertino.
13
14

15 459. It appears to be an unwritten rule that any
16 victim of organized crime, whistleblowers, activist or
17 decent citizen be very careful whose feathers they
18 ruffle. Reining in the truth for the sake of not being
19 ostracized as one who cares too much about what's right
20 - is the very problem in a nutshell. One simply can't
21
22 say a broken kettle is broke and warn it will spill.
23
24

25 460. Fortunately for this instant RICO case, there
26 simply is no middle ground. Either justice is going to
27 come, or corruption is going to continue. As a matter
28

1 of fact, once plaintiff throws all the punches at once;

2 the odds of this case dramatically changed.

3
4 461. There's a 25% probability of a any settlement
5 occurring. Also a 25% chance that corruption will snake
6 its way to this realm. This RICO Complaint might be
7 quashed by the Administrators of U.S. Courts ordering
8 the case back to DE den of iniquity. The U.S. Courts is
9 also derelict of duty since the outset (like EOUST).
10

11
12 462. Then there's the slimmer chance, perhaps a
13 mere 20%, that the federal system of justice will wake
14 up and realize that there's a big fish here waiting
15 (actually Begging) to be fried by a Criminal RICO.
16

17
18 463. Laser the Liquidator is Not the problem here.
19 If the powers that be looked at a bigger picture and
20 would stop fretting over who will be embarrassed
21 (mounting a higher stack of untenable cards. Then some
22 "virtuoso" on the federal side of the fence might
23 realize Bain Capital has vast billions to be RICO
24

25 seized & a nation crying for White Collar Wall Street
26 Frauds to be reined in and citizenry appeased.
27
28

1 464. There's also the possibility that rungs in the
2 ladder will be eliminated. Paul Traub perhaps, is as
3 much at risk of being ended, as is the plaintiff. How
4 far corrupt criminals will push "Above the Law" premise
5 to the fullest; has apparently already been tested.
6
7

8 465. I'm sure Pitten's will be happy to see me go!
9

10 466. Be that as it may, plaintiff is encouraged
11 that this good court was not muscled to nix this case
12 as of yet. Where there's a great hope for justice and -
13 finally - a chance for proper adjudication upon the
14 merits; it is best not to waste the opportunity.
15

16 467. As this case is bound to be vetted by parties
17 far and wide; a "**pro se**" can get the ball rolling where
18 angels fear to tread and all "common sense" BAR Cards
19 counsels may never be allowed to speak about or go.
20
21

22 468. Thus we'll now sum up this section of this
23 Complaint with a list of public federal servants that
24 prove the promise another Madoff case can't possibly or
25 won't probably happen, and/or that there's None who are
26 to big to jail; are really just so full of Bull!
27
28

1 469. No purported arrest and/or federal review of
2 any consequence occurs when TLCo merger with Mattel
3 loses nearly \$3 Billion almost immediately!

4
5 470. Main stream media failed to address the fact
6 that Romney & Gang owned The Learning Company.
7

8 471. The SEC confessed that for 25 years, the SEC
9 has been destroying case files. (I doubt this is fact) !
10

11 472. In 2000, Stage Stores files bankruptcy and Dov
12 Avni (owning \$4500 worth of stock) points out several
13 malfeasances. Traub files his bogus banter Supplemental
14 "upon information and belief". Then U.S. Marshals are sent after
15 Dov Avni to collect \$380,000 in purported legal fees it
16 took to defend against the claim "vexatious" litigation
17 meritless. Is that *quid pro sch'mo*?
18
19

20
21 473. As the Gang from Stage Stores snuggles over to
22 eToys - pretending to be opponents; DOJ trial attorney
23 Mark Kenney actually instructs plaintiff to accept a
24 bribe; where litigant can get it rubber stamped okay.
25

26 474. You know - as in a Deferred Prosecution
27 Agreement sort of way!
28

1 475. More schemes and scams scum as Romney owns

2
3 Mattel stock and is able to send the chair of the eToys
4 Creditors Committee to bask in early retirement.

5 476. Goldman Sachs has managed to get away with
6
7 *pump-n-dump* schemes as its secret law firm of MNAT is
8 now nominated and affirmed by the court as eToys firm.

9 477. Mitten's in 2001 then "*retroactively*" resigns.

10
11 478. Followed up with MNAT's partner Colm Connolly
12 becoming the "*Dealaware*" United States Attorney.

13
14 479. Kay Bee CEO Mike Glazer takes an \$18 million
15 bribe for making Bain Capital happy with \$83 million.

16 480. As SEC case files are destroyed - AGAIN!

17
18 481. Even with Traub/TBF, Barry Gold and MNAT
19 confessing lying oath to the court; Kay Bee, FAO
20 Schwartz & eToys issues are never properly reviewed.

21
22 482. As if buying and selling the positions in the
23 U.S. Government is no big deal, Karl Rove's gal Susan
24 Ralston is sought out to help get Greenberg & Taurig

25
26 gain control of the Region U.S. Trustee at the behest
27
28 of Jack Abramoff (whom Ralston used to work for).

1 483. Robert DeAngelis in 2004, is Acting Region 3

2
3 U.S. Trustee who goes before a Congressional Hearing in
4 Washington, D.C. as a purported expert in the punishing
5 of wayward attorney issues.

6
7 484. Counsel Henry Heiman emails a threat to his
8 own CLI client from Traub's firm to back off or else.

9
10 485. Then Mark Kenney again rear his despotic face,
11 telling plaintiff that he need not worry; because Barry
12 Gold & Paul Traub issues were handled in another case
13 of Bonus Sales. As if cases are cross collateralized.

14
15 486. Kenney talks of how Traub and Gang could have
16 circumvented the Law if "we'd just made Traub a Special
17 Counsel then you [litigant] couldn't hawk on this'.

18
19 487. On December 22, 2004, eToys Emergency Hearing
20 was held as Roberta DeAngelis was purportedly shown the
21 exit door. Then the confessions came forth from Traub,
22 MNAT and Barry Gold, due to a couple of discovered /
23 ferreted out **Smoking Guns** Evidences.
24
25

26 488. As a result a \$1.6 million sanction for TBF
27 the U.S. Trustee did provide on February 15, 2005.
28

1 489. But that was a short lived window dress as
2
3 Mark Kenney stepped forward less than 9 days later with
4 his Disgorge Motion ***bogus*** Stipulation to Settle.

5 490. DOJ Deputy Director of the EOUST Lawrence
6 Friedman then emailed this plaintiff of the UST Police
7 intent to bring justice fully to bear.
8

9 491. However, when EOUST Director Friedman learned
10 of the Kay Bee Toys \$100 million fraud - HE Resigned.
11

12 492. Still nothing to see, from the evermore case
13 file destroying SEC.
14

15 493. No need to fear though, as this plaintiff did
16 try in the Kay Bee case to give that justice filings
17 informative. Only to witness Mark Kenney come out of
18 his autocratic shell seeking an order for the evidence
19 to be fully stricken, expunged and covered up.
20
21

22 494. Proffering the Disgorge Motion, Frank Perch
23 too, as Assistant United States Trustee - RESIGNS!
24

25 495. Mr. Perch was replaced by the somewhat less
26 brazen - In re Cold Metal Assistant US Trustee Andrew
27 Vara; who also was also duplicitous/ willfully blind.
28

1 496. Assistant UST Vara is harangued for his Breach
2 of Fiduciary Duty position by yours truly, for the fact
3 that Mr. Vara's In re Cold Metal dealings are exactly
4 on point with the eToys case. Where Aarque was properly
5 disqualified by Assistant UST Andrew Vara.
6
7

8 497. Andrew Vara then moves off to another state.

9 498. To plaintiff's chagrin, in July 2005 a new/
10 visiting justice became CLI's claim adjudicator.
11

12 499. The visiting justice Randolph Baxter warns
13 complainant to stop crying about frauds - or Else!
14

15 500. When plaintiff did then cause more of a stir
16 by the Wall Street Story reporting of Traub and Barry
17 Gold's fraud (as a result of litigant's efforts). Then
18 that visiting justice decided it was time to flex his
19 oppressive might. Without a briefing he put plaintiff /
20 CLI totally out of the eToys case with prejudice.
21
22

23 501. A timely appeal was submitted; which was then
24 speciously headed off by the DE BK CT Opinion (coming 6
25 months after the March 1, 2005 evidence hearing where
26 the confessions were made a permanent part of PACER).
27
28

1 502. The DE BK Ct chief justice presiding over the
2
3 eToys said it was really no big deal confessions of
4 lies to her transpired. Erroneously concluding in 2005
5 that - since the case was over - it is too late!

6
7 503. Then the DE BK Ct also concludes there is no
8 need to refer the case to the U.S. Attorney.

9
10 504. With the real reason for the refusal to Notify &
11 Refer (as required by Law under 18 U.S.C. § 3057(a)); is
12 that the "official" referral would have went to the
13 despotic planted MNAT former partner Colm Connolly.

14
15 505. To upper courts both this plaintiff and eToys
16 shareholder Robert Alber did go. The 3rd Circuit rules
17 that Federal Rules of Appellate Procedure don't apply? (case 07-2360).
18

19 506. No big deal as the corruption machine finds
20 little time to be idle. DE Dist. Ct Judge KAJ warns the
21 counsels of their peril; but is promoted off the case!
22

23 507. Justice KAJ is not alone in the speciousness
24 of being promoted up. New York Supreme Court case has
25 Justice Moskowitz going after Paul Traub too; but is
26 promoted OFF to the New York Supreme Court of Appeals.
27
28

1 508. In 2007, plaintiff finds two new discoveries.

2
3 That of U.S. Attorney Colm Connolly's detailed federal
4 archived Resume and that Colm was a MNAT partner.

5 509. At the same time plaintiff also is informed
6
7 that the December 22, 2004 "*removed*" Region 3 US Trustee
8 Roberta DeAngelis; is now the General Counsel of EOUST.

9
10 510. While Romney fails miserably in his 2008 POTUS
11 quest; the **Public Corruption Task Force** apparently was
12 SHUT DOWN to protect the MNAT, Colm Connolly, Romney,
13 Traub and eToys corruption case from being examined.

14
15 511. How morose things are, is the Los Angeles
16 Times reports in its story "*Shake-up roils federal*
17 *prosecutors*" that U.S. Attorney Tom O'Brien actually
18 had the gall to threaten career prosecutors to keep their mouths shut.

19
20
21 512. Meanwhile, once again, the SEC continues to
22 destroy all case files. Even when Petters and Dreier
23 are now no longer getting away 'Scot Free'. While Tom
24 Petters attorney Douglas Kelley is provided fallacious
25 protection with legislated from the bench fabrication
26 of "Judicial Immunity" for Kelley to be a Federal Receiver.
27
28

1 513. The betrayers of the public's trust also
2
3 (unethically/illegally) allow Doug Kelley as Federal
4 Receiver to become the bankruptcy Trustee over some of
5 Tom Petters Ponzi cases.
6

7 514. Framers of the bankruptcy law Ken Klee tells
8 plaintiff not to bother him with emails anymore. After
9 he too, sells out and becomes a bankruptcy Examiner of
10 the Chicago newspaper case (where Mr. Klee can utilize
11 those mystical powers/magic stones of his).
12

13 515. All of sudden, with Business Week's Matthew
14 Goldstein about to do a story on Paul Traub being
15 partners with fraudster Marc Dreier and Tom Petters
16 Ponzi scheme after Traub gets away 'Scot Free' in
17 eToys. Out of the blue, the Bernie Madoff case springs
18 up when Madoff's sons coincidently rushes to inform the
19 feds about their father. [And then commits suicide later] !
20
21

22 516. Any reviewer should bear in mind that this
23
24 plaintiff has kept each and every email to document all
25
26 of the times litigant tried to inform/motivate the feds
27 to do their job. Including "print screen" pictures of
28

1 online submittals to the FBI, DOJ and UST websites,
2 emails, memos, mailings and logs of phone calls.

3
4 517. Plaintiff has made many copies, with backups
5 in several hidden places.

6
7 518. What is also perplexing as obfuscating can be;
8 is the babbling BS banter that the Tom Petters Ponzi
9 alone is a mere \$3.7 billion + spree.

10
11 519. Whereas Petters cohorts Catain claims \$10
12 Billion in laundering and Larry "Reservitz" Reynolds
13 claims \$12 billion [**while Reynolds was in WISTEC**].

14
15 520. And yet, all that tends to pale in compare
16 when a huge other buried secret is noted. That of the
17 "Suicided" Marty Lackner who is brother of Petters
18 Ponzi prosecutor J. Lackner [who also is 'Scot Free'].

19
20 521. Unfortunately this virus of tossing the U.S.
21 Constitution out the window continues to grow; as other
22 despotic, file destroyers like the DOJ's Whistle Blower
23 protector (Office of Special Counsel) Mr. Scott Bloch
24 confesses he destroyed case files and pleads guilty;
25 but then refuses to do even one month of prison time!
26
27
28

1 522. Even worse is the fact that eToys shareholder

2
3 Robert Alber escapes his chalk outline; but the good
4 faith Jack Wheeler is not so fortunate.

5 **XI SCHOLARS DETAIL ISSUES OF BANKRUPTCY CORRUPTION**

6
7 523. Once again, plaintiff is well aware that all
8 naysays/doubting Thomas's are spouting how this stuff
9 is all just simply mere coincidence and that the system
10 simply can't and won't do such wrongs (even though it is fully
11 obvious that rogues within the system clearly have done such wrongs) .

12
13
14 524. Plaintiff is only seeking justice where
15 justice has been a wraith now, for more than a decade.

16
17 525. Plaintiff's RICO Complaint alleging Bankruptcy
18 Fraud & Federal Corruption is not a novel legal theory.

19
20 526. Prior to this time, some of the brightest
21 legal minds / esteemed public servants have documented
22 and/or remarked upon the fact the Bankruptcy system of
23 justice can and is sometimes plagued by insider issues
24 of elaborate efforts in bad faith.

25
26 527. As noted above, the precedent case from the
27 3rd Cir. of its decision in the case of In re Arkansas
28

1 798 F.2d 645. Where the U.S. Congress addressed the
2
3 directly on point issues affirmed by the 3rd Circuit
4 that "*bankruptcy rings*" of wayward counsels does exists (See
5 H.R. No. 595, 95th Cong., 2d Sess. 92, reprinted in
6
7 1978 U.S. Code Cong. & Ad. News 5787, 5963, 6053).

8 528. Indication of existence of this RICO gaining
9
10 unjust enrichment from an "*association in fact*" being a
11 ***Bankruptcy Ring*** - is clearly visible from the facts.

12 529. Obviously Congress was well aware *Bankruptcy Rings*
13
14 might be a problem. That is why Congress prudently
15 included the Bankruptcy Fraud statutes §§ 152 through 156 as "*predicate*
16
17 *acts*" under RICO Prosecution Laws of **18 U.S.C. § 1961**.

18 Texas Senator John Cornyn & UCLA Law Professor Lynn LoPucki

19
20 on Bankruptcy Fraud & Corruption

21 530. One professor who has been debated much on
22
23 Bankruptcy Fraud is UCLA Law Professor Lynn LoPucki.

24 531. Professor LoPucki wrote a book on the germane
25
26 subjects applicable to this case titled appropriately
27
28 as "*Courting Failure: How Competition for Large Bankruptcy Cases is
Corrupting Our Courts*".

1 532. Also written by the UCLA Law Professor, is a
2 paper apropos to this case titled "*Routine Illegality*".

3
4 Senator John Cornyn on - **Picking Verdicts**

5 533. Texas Senator John Cornyn quotes Professor
6 LoPucki in the Legal Times edition of - "*They Owe Us*".
7

8 534. Senator Cornyn remarks in his 2005 Legal Times
9 article "*They Owe Us*", on the fact that parties **picking**
10 **a venue** is akin to being able to **pick a court verdict**.
11

12 U.S. Trustee Worker Mary F Powers Accused UST Program of Bad Faith

13
14 535. Bankruptcy Judges can't pull stunts all on
15 their own. In order to get away with such (especially
16 in the 3rd Cir. realm that is already aware of "*Bankruptcy*
17 *Rings*") bad faith judges need duplicity of the Federal
18 Police of the Bankruptcy System (the U.S. Trustee).
19
20

21 536. It just seems proper to quote a voice of
22 reason from the other side of the US Trustee fence.
23

24 537. At Congressional Hearings on Administrative
25 Law, in 2007, Mary F Powers gave testimony as a former
26 trial attorney of the United States Trustee's program
27 that alleges bad faith intent by autocrats within.
28

1 538. Mary Powers stated accusingly that; *"-it is my*
2 *distinct feeling, based on my over 4 years employment*
3 *there, that the policies and the practices of the*
4 *United States Trustee were moving farther away from its*
5 *mission to the integrity of the system. I felt that it*
6 *was going to be less and less about justice, and, at*
7 *some levels, actually served as an impediment"*.
8
9
10

11 539. These remarks by venerates of the federal
12 system of justice corroborate the fact that there are
13 rotten apples in the barrel and that there are cases of
14 bad faith acts by counsels/watchdogs that do not bode
15 well for the *integrity of the judicial process*. The
16 eToys case serves as a specific example of such.
17
18

19 540. Public servant/ former UST worker Mary Powers
20 directly accused former DOJ Deputy Director Lawrence
21 Friedman of the EOUST, in making a trip all the way to
22 her small office in upstate New York for the sake of
23 having her **fabricate** "mom & pop" cases of fraud.
24
25

26 541. Hence, not only is the United States Trustee
27 Program guilty of being derelict of duty in "obvious"
28

1 cases of large fee Chapter 11 bankruptcy frauds. But
2
3 the despots *are intentionally slaughtering individuals*
4 *to make it appear that the UST's office is performing.*

5 Bankruptcy Honorable Justice A. Jay Cristol Remarks Upon Friedman

6
7 542. Also corroborative of the fact our federal
8 system of justice pertaining to the U.S. Trustee's
9 office and federal bankruptcy courts are acting in bad
10 faith, are the remarks of well established justice.

11
12 543. His Honor A. Jay Cristol was Chief Judge
13 Emeritus United States Bankruptcy Court Southern
14 District of Florida. His remarks were made during the
15 2007 Congressional Subcommittee on Administrative and Commercial Law
16 hearings about the U.S. Trustee Program.

17
18 544. His Honor was asked about the United States
19 Trustee program being a "Watch Dog or Attack Dog"?

20
21 545. Justice A. Jay Cristol adjudicated cases for
22 more than 20 years and was chief justice from 1993 to
23 1999. His Honor was a civilian lawyer and served many
24 years in the Reserve Judge Advocate Generals Corps. As
25 such, His Honor A. Jay Cristol is an expert here.
26
27
28

1 546. Noteworthy are His Honor remarks that the
2
3 changes of the bankruptcy Code in 1978 elevated judges
4 to being more pure judge status. And that our United
5 States Trustee program should be more precisely named
6 as "The U.S. Bankruptcy Administrator".
7

8 547. Plaintiff concurs with the reflection that the
9 title "Trustee" is (at best) a misnomer.
10

11 548. As for the issue of "Watch Dog or Attack Dog", His
12 Honor A. Jay Cristol remarked the U.S. Trustee program
13 is a "pack of dogs" in Chapter 7 & Chapter 13 mom and pop
14 cases. And that the US Trustee is more like Lassie/ Rin
15 Tin Tin in large (big fee) Chapter 11 bankruptcy cases.
16
17

18 549. His Honor was also critical of the former DOJ
19 Deputy Director as chief administrator of the EOUST.
20

21 550. Justice A. Jay Cristol poignantly remarked
22 Lawrence Friedman and his Assistant Director Clifford
23 White III were bad public servant executive directors
24 who tyrannical go after individual debtors with fangs
25 in a manner oppressive with little hope of relief as -
26
27
28 "It is not a Goliath against David, it is more like Goliath against an ant".

1 551. Then Justice A. Jay Cristol closed with a
2
3 remark that is so applicable to this instant case, it
4 is as if he wrote such for eToys case itself. His Honor
5 A. Jay Cristol stipulated apropos that we should; "*Fear*
6 *not those who do evil in the name of evil – but heaven protect us from those who*
7 *do evil in the name of good*".
8

9
10 552. Plaintiff most certainly concurs and has more
11 remarks corroborative, higher up the justice system.
12

13 USAG John Ashcroft Remarks to the Hague on Bankruptcy Court Corruption.

14 553. There is much debate about why no one can find
15 the remarks of former USAG John Ashcroft on Bankruptcy
16 Judges and U.S. Trustee Collusion and Corruption. Why
17 the statement is now redacted really doesn't matter.
18

19
20 554. Even if the former Attorney General were to
21 come out and say he is not the origin of the remarks;
22 the fact of the matter is that the "quoted" remarks
23 have great veracity and needs to be addressed.
24

25 555. In 2007, Francis C P Knize quoted a purported
26 writing by the former USAG John Ashcroft, apparently
27 written to The Hague Global Forum on Corruption.
28

1 556. These remarks of USAG Ashcroft are clearly
2 "testified" to by Francis C P Knize during Public
3 commentary on Rules Governing Judicial Conduct per 28
4 U.S.C. §§ 351-354, Presented Pursuant [FR Doc. E7-14268
5 Filed 7-20-07; 8:45 am] Billing Code 2210-55-P per
6 Department of Justice U.S. Parole Commission Public
7 Announcement, under the Government in Sunshine Act
8 (Pub. L. 94-409) [5 U.S.C. Section 552b]. Thus the
9 issue of redaction should have been addressed then.
10
11
12

13 557. It is best to type the entire quoting by
14 Francis C. P. Knize of USAG John Ashcroft's writings to
15 the Hague in full. Whereas, REPORTEDLY, the former USAG
16 did write to the Hague Global Forum on Corruption and
17 his notes are iterated by Mr. Knize that; "Our own former
18 U.S. Attorney General John Ashcroft condemned the judicial branch of
19 government by characterizing this branch as 'organized crime'".
20
21
22
23

24 558. Francis C P Knize continues his "testimony"
25 and stipulates that USAG John Ashcroft wrote; "Bankruptcy
26 court corruption is not just a matter of bankruptcy trustees in collusion with
27 corrupt bankruptcy judges. The corruption is supported, and justice hindered by
28

1 high ranking officials in the United States Trustee Program. The corruption has

2
3 advanced to punishing any and all who mention the criminal acts of trustees and
4 organized crime operating through the United States Bankruptcy Courts. As
5 though greed is not enough, the trustees, in collusion with others, intentionally go
6 forth to destroy lives. Exemptions provided by law are denied debtors. Cases are
7 intentionally, & unreasonably kept open for years. Parties in cases are sanctioned
8 to discourage them from pursuing justice. Contempt of court powers are misused
9 to coerce litigants into agreeing with extortion demands. This does not ensure
10 integrity and restore public confidence. The American public, victimized and held
11 hostage by bankruptcy court corruption, have nowhere to turn".

12
13 559. Nothing says what is going on in this instant
14 case better than these reported USAG Ashcroft remarks.

15
16 560. As a final proof that things are running amok;
17 it is now worthwhile to also get a quote that was in
18 the press, from a presiding judge visiting Delaware.

19
20 561. The justice corroborates that fact that the US
21 Trustee's office is duplicitous in helping fraud get

22
23 away 'Scot Free'. Whereas Her Honor's remarks gives
24 this case an on-point that is separate from the RICO;
25 but of the same nature and in the State of Delaware!

1 Visiting DE BK Ct Justice Accuses U.S. Trustee of Duplicitous Silence about Fraud

2
3 562. As evidence of how incestuous and systemic the
4 federal venality has become, visiting DE BK Ct Justice
5 Judith Fitzgerald remarked concerning the Tersigni
6 fraud case and how fraud was kept hidden by the UST.
7

8 563. Whereas, the Delaware United States Trustee
9 deemed it suitable to keep the Tersigni fraud a secret
10 from that court for more than a year.
11

12 564. Tersigni frauds was reported by the Associated
13 Press in the 2007 story "Justice Dept. silence aided fraud". After
14 the visiting justice learned about the Tersigni fraud
15 said justice remarked; "What on earth was going on in the Department
16 of Justice"? And that question is most certainly germane to
17 this instant RICO case state of affairs.
18
19
20

21 565. One can take the evidence herein, coupled with
22 the remarks of public servants above and make a rock
23 solid good case for Racketeering against the DE BK Ct
24 and the United States Trustee - IF they weren't IMMUNE!
25

26 566. As is pointed out by the visiting justice
27 presiding over the Tersigni case, the U.S. Trustee's
28

1 silence (probable willful blindness) aided/abetted the
2 fraud to thrive. Her Honor Judith Fitzgerald is quoted
3 in the press stating; "*Literally millions of dollars went out of debtors'*
4 *estates that should not have gone out*".
5

6
7 567. Her Honor continued and reflected that "there
8 was a fraud on this court, and the Department of Justice participated".
9

10 568. This is exactly on point with what's occurring
11 in the instant RICO case. Fraud continues to thrive
12 over an extended period of time via federal duplicity.
13

14 569. It is extensively heinous and egregious when
15 our federal system of justice and tax paid public
16 workers are the cause of the problem; instead of being
17 the solution they are designated to be.
18

19
20 570. It appears that rogue elements buried deep
21 within our federal system of justice are there to make
22 sure that large scale racketeering succeeds; without
23 having the need to worry about Police/Prosecutorial
24 interventions. This should be allowed to occur. IT
25
26 CAN'T BE ALLOWED TO OCCUR!
27

28 571. Thus there are MANY "*Prosecutorial Gaps*"!

PRAYER FOR RELIEF

572. Plaintiff comes before this court seeking what has been missing thus far; an Honorable Court willing to apply the Law as it has been written.

573. Litigant demands a jury trial.

574. Additionally, litigant incorporates all items above herein as if again stated. Litigant seeks general & unmitigated damages, in accordance to the Law, via proof at trial of the fact that the RICO Defendants have harmed plaintiff's business to the tune of, at the barest of minimums, an estimated \$3.7 million in 2001. Whereas plaintiff is permitted penalties, interests and disciplinary damages of that, trebled in accordance to statute 18 U.S.C. § 1964(c). Estimated to be \$100 million above fees & costs against ALL RICO Defendants!

575. Furthermore, plaintiff seeks declaratory relief and injunctive, through motions and/or other such requests as permitted/directed by the court prior to, during and after the courts has had time to review the RICO case statement due in 20 days hence.

1 576. Plaintiff also seeks punitive damages.
2

3 577. It is a fact that the Delaware Bankruptcy
4 Court signed an order approving plaintiff's CLI two
5 contracts in eToys; which grant Indemnification rights to
6 CLI, its agents & officers; and includes the fact eToys
7 is to provide counsel and guarantee of legal fees.
8

9 578. Plaintiff prays this court enforce the rights
10 per those court Ordered/Approved contracts.
11

12 579. Plaintiff's own counsels of Henry Heiman,
13 Michael Weiss, Fox Rothschild, Brad Brook, The Bayard
14 Firm and Michael Kennedy all failed to point out the
15 contractual rights of CLI and its agents (plaintiff).
16
17

18 580. Nor did any counsel point out the fact of
19 attorney fees were to be paid by eToys.
20

21 581. As a matter of FACT, the only attorney who has
22 really helped this plaintiff, is a former partner of
23 Paul Traub's (Stephen Mayka).
24

25 582. Mr. Mayka was helping plaintiff behind the
26 scenes, as much as he could; without betraying a prior
27 client's interest.
28

1 583. Stephen Mayka was the party who asked about
2
3 the Indemnification clauses for CLI; which all of
4 plaintiff's other counsels kept hidden from litigant.

5 584. It was a *faux pas* by Traub's self-described
6
7 co-counsel Frederick Rosner (who plaintiff is hoping will finally seek
8 immunity and come forward); where Rosner attached the CLI
9 contracts to Frederick's incongruous discovery request.
10

11 585. Plaintiff has talked to, reached out to and
12 discussed this case with the greatest of legal minds of
13 our land. Including efforts with esteemed parties who
14 helped frame the Bankruptcy Law (Kenneth Klee) and the
15 UCLA Law Professor Lynn LoPucki (who wrote a book named
16 "Courting Failure" How Competition for Large Bankruptcy
17 Fee cases is Corrupting our Courts).
18
19
20

21 586. One can hardly blame any decent person/counsel
22 from declining the case; even though the Court Order
23 guarantees legal fees. It is obvious that no one lawyer
24 can't fight organized crimes. The only counsels who
25 have taken this case thus far, are those who "dealt"
26 themselves into the RICO *Bankruptcy Ring* schemes.
27
28

1 587. Therefore, oddly enough, at least there are
2
3 some decent attorneys at law out there who are not
4 willing to join Romney's RICO Gang; but they are bum
5 fuddled as to how to proceed when it is clearly evident
6 that the RICO Defendants organized criminal empire is
7 so powerful that the Law is NOT being Applied ANYWHERE
8 - in any court (thus far) - State or Federal.
9

10
11 588. Professor LoPucki, like his Honor A. Jay
12 Cristol above and the purported remarks of the former
13 U.S. Attorney General John Ashcroft; all detail the
14 fact that our federal systems of justice are not immune
15 from human frailty, greed and uncertainty.
16
17

18 589. UCLA Law Pro LoPucki worries that our system
19 of justice is too far gone. His concerns of "forum
20 shopping" were reiterated by TX Senator John Cornyn who
21 charged of "picking verdicts" in The Legal Times story.
22

23 590. What is not at issue here is - plaintiff
24 coming as a "**pro se**". As Congress grants that right as
25
26 a matter of law and deemed it prudent to give America
27 the RICO Act, including "predicate act" issues of Bankruptcy
28

1 Fraud; so that a U.S. citizen could utilize the masters
2 tools exactly for instances such as this one.

3
4 591. Plaintiff is permitted, as established by
5 Congress and affirmed by the Supreme Court in *Sedima*
6 ***Supra***; to be a "Private Attorney General".

7
8 592. Congress so desired this extraordinary remedy
9 of Civil RICO, where any citizen may effort this tool
10 against "Prosecutorial Gaps".

11
12 593. Whereas Congress even went as far as to grant
13 the extra enticement proviso of treble damages.

14
15 594. What is also at issue here is the *integrity of*
16 *the judicial process*; **it should be sacrosanct!**

17
18 595. Thus far, judgment upon the merits is a ghost,
19 vis-à-vis "Civil Rights" violations of "Color of Law"
20 in an arbitrary & capricious manner, for the sake of
21 super corporations like Goldman Sachs and Bain Capital.

22
23 596. It is prudent to remember that the autocrats
24 had the dangled carrot of probable future rewards for
25 doing a favor for POTUS wannabe Romney.

26
27 597. Fortunately - **ROMNEY DIDN'T MAKE IT!**

1 598. Currently, there's no federal agent and/or
2 agency willing to address issues of Federal Corruption.

3
4 599. Public civil servants are openly Breaching
5 their Fiduciary Duty without any remorse or relent.

6
7 600. Where even the Department of Justice's Los
8 Angeles division of the Public Corruption Task Force was
9 wickedly SHUT DOWN; and career federal agents were
10 actually "Threatened" to keep silent. **This IS NOT OKAY!**

11
12 601. When the Task Force was dismantled (under the
13 bogus premise no corrupt cases existed) it was the 1st
14 time - EVER - that plaintiff was contacted by the FBI.

15
16 602. But those original agents were ordered OFF the
17 case and their replacements threatened this litigant!

18
19 603. Such perversions of justice are reprehensible;
20 and bad faith ethics/indecency can't be permitted.

21
22 604. Our nation's public servants are indorsed to
23 be immune and have tax payer monies defend them because
24 they are serving justice, not themselves as profiteers.

25
26 605. We can't have judges legislating from the
27 bench handing out *judicial immunity* as sweeties to cronies.
28

1 606. The very moment the enticements of profit

2 enter into the judicial process, integrity is mislaid!

3
4 607. Nor can federal prosecutors be getting paid
5 millions for Deferring Prosecutions. That's BRIBERY!

6
7 608. Wall Street Corporations like Defendants Bain
8 Capital and Goldman Sachs cannot be permitted to openly
9 Break the Law without any worry of capture.

10
11 609. Plaintiff reserves his right to amend this
12 RICO Complaint as the Law does permit and as the Fed.
13 R. Civ. P 15(a) does allow as "justice so requires".

14
15 610. Complainant seeks any and all relief allowed,
16 with a demand for jury trial, and any other relief the
17 court may deem appropriate.

18
19 611. This RICO took Thane Ritchie, the son of Scott
20 Armstrong & G-d son of "THE" Bob Woodward for a couple
21 of hundred million; where the RICO is so strong Thane's
22 family history is moot. Who is safe? **Who will be next?**

23
24 612. Quite frankly, if the federal system of
25
26 justice refuses to admit that bad apples in its ranks
27 did bad things, in a bad faith effort to continue the
28

1 cover ups; then there's hardly any civil remedy to be.

2
3 Anarchy is already reigning supreme.

4 613. However, whether or not Romney ever even gets
5 hauled onto the stand, much less arrested, indicted and
6 convicted; along with the RICO Defendants. That's not
7 the quest of this Complaint. Its litigant's job & duty
8 to stop the systematized material adverse harms.
9

10
11 614. All applicant seeks, all that is needed, is
12 for just one honorable public servant to do their job.
13

14 615. It shouldn't be too much to ask for.

15 616. It is even simple to do so, as the DE BK Ct
16 provided a court Order approval of the eToys Confirmed
17 PLAN where the Administrator can be removed for cause.
18

19 617. Barry Gold usurped this litigant, stole his
20 chair; doing so in order for Mr. Gold to take/ destroy
21 the entire eToys public company & eToys federal estate.
22

23 618. The simple remedy is to order that plaintiff
24 be put back where the DE BK Ct originally stated this
25

26 claimant belonged - as fiduciary to protect eToys - and
27 thereby remove eToys estate / company / vault robbers.
28

1 619. Is plaintiff wrong to have a hope for justice?

2
3 620. Whereas, all that is needed to be done, is to
4 flip flop the corruption that occurred in Minnesota. As
5 Thane Ritchie's guys, attorneys and such were told to
6 go suck wind. Where the RICO Gang was given Polaroid,
7 Fingerhut almost for free. While Traub being a partner
8 of Romney has made Traub "untouchable"/ 'Scot Free'.
9
10

11 621. Being that there are already many confessions
12 in the PACER archives this court could take Judicial Notice
13 under Fed.R.Civ.P 201 and address the disqualifications of
14 the parties as is a command of Congress under the Code
15 & Rule of Law per Bankruptcy Section 327(a).
16
17

18 622. This court can throw out the crook Barry Gold
19 who sits in eToys chair - in the SoCal district!
20

21 623. No matter how many times an autocratic public
22 servant may abuse their vaulted position of trust and
23 power over the case and this plaintiff; the fact of the
24 matter remains the truth is an inflexible sword and the
25

26 FACTS of this case shall remain immortal/ unwavering
27 and resolute in the steadfast quest for justice.
28

1 624. How is it that the RICO Defendants and/or

2
3 their co-conspirators are being permitted to abuse the
4 Constitution and seek the Constitutional protections of
5 claiming there issues of Judicial Immunity/ Time Bar?

6
7 625. How is it that this plaintiff is the one being
8 punished instead of admitted liars under oath?

9
10 626. Whereas the RICO Act provide NO Statute of
11 Limitations and the Colm Connolly issues of federal
12 corruption blocking justice are germane. Plus the case
13 of In re Hazel Altas Glass is controlling.

14
15 627. All items herein are sworn to this court,
16 this the 6th day of November - **Under Penalty of Perjury**
17 by Steven Haas (also known as "Laser"), who comes to
18 this good court as a "**pro se**" party.

19
20 628. Plaintiff is permitted by our Constitution,
21 per Congress and affirmed by the Supreme Court of the
22 United States in **Sedima** to become a "*Private Attorney General*"
23 to halt "*culpable*" persons "*corrupting*" legitimate
24 interstate commerce by "*patterns*" of "*Racketeering*"
25 over extended periods of time.
26
27
28

1 629. Whereas RICO Defendants are doing organized

2
3 crime sprees via a "*Bankruptcy Ring*" and getting away with
4 such chiefly due to visible acts of Federal Corruption!

5 630. Litigant's business continues to be harmed.

6
7 631. Plaintiff knows that there are many judges and
8 federal public servants who care; but are prevented.

9
10 632. There are cases throughout the nation being
11 harmed by these systemic and incestuous schemes of
12 ***Bankruptcy Rings***. Such as that of Meryl Lanson's Barons
13 stores, Donna Sturman, Jeffrey Baron and more.
14

15 633. Litigant's eToys case was quoted by the *Balco*
16 *Estis* case in New York Bankruptcy Court's to re-open
17 and address issues of fraud on the court.
18

19 634. As was Meryl Lanson's and her Baron's stores
20 case. But in the case of Meryl's the justice re-opens
21 the case and then succumbs to the impropriety.
22

23 635. The *Bankruptcy Ring* disease is becoming systemic
24 and incestuous; as is the nature order of any criminal
25 enterprise being above the law due to federal venality.
26

27
28 636. Doesn't anyone care about integrity anymore?

1 637. The RICO Defendants are either Above the Law,
2
3 or they are not; and plaintiff is simply asking this
4 good court to decide that issue correctly!

5 638. Plaintiff apologizes to this honorable court
6
7 for his having to come before it as an inept "**pro se**".

8 639. Especially since there appears to be some
9
10 unwritten rules that a victim of organized syndicates
11 should be a *summa cum laude* graduate from law school,
12 who is also supposed to have a PHD in English/Writing
13 and be able to tell a story better than Mark Twain. I'm
14 sad to report to the reviewers (as is obvious) that
15 this plaintiff didn't even graduate High School.
16
17

18 640. Someone else nobler, more proficient, better
19
20 educated and accomplished should have had this burden
21 of this particular quest for justice placed upon them.

22 641. Plaintiff's family and friends thinks he is a
23
24 fool for turning down the career changing bribe.

25 642. Plaintiff has no idea why G-d and his universe
26
27 picked him. Perhaps it simply is the fact that - not
28 for a nanosecond, did litigant consider taking Bribery

1 offers and joining the Romney RICO gang. (Even though
2
3 *it was plaintiff's career desire for more than two*
4 *decades to make it to the pinnacle of the nation*
5 *business's as a top deal maker in the country).*

6
7 643. Litigant comes before this court in the hope
8 and pray that such is not the mindset here. It is the
9 soul of our country being toyed around by Racketeers &
10 **that ain't Right!**

11
12 644. Where the RICO is so strong it can arrange for
13 one of their own to become the U.S. Attorney over their
14 case; extraordinary hammers of justice are needed.

15
16 645. When a Chief Federal Justice can openly defy
17 her oath rewarding the RICO; anarchy is reigning.

18
19 646. Douglas Kelley was Petters attorney and then
20 Douglas Kelley flip flopped to the other side of the
21 fence to become Tom Petters Federal Receiver.

22
23 647. Judges can NEVER be permitted to hand out "Get
24 out of Jail/Prosecution/Lawsuit Free Cards" under the counterfeit
25 legislation from the bench of "Judicial Immunity";
26 particularly when it is to their cronies!
27
28

1 648. David Weber was one of the few decent public
2
3 servants at the Office of Inspector General ("OIG") of
4 the SEC who refused to be subdued by corrupt despots.

5 649. Plaintiff is not permitted to hire a great
6
7 counsel like David Weber; who must abide by the rules
8 of Law and can't work a case tied to SEC issues.

9 650. And yet, a former U.S. Attorney General can
10
11 take a \$50 million dollar No Bid contract from a U.S.
12 Attorney! That Contract HAD TO BE RESCINDED!

13
14 651. Douglas Kelley is not the only party who was
15 given "*Judicial Immunity*", as Frank Vennes's Receiver Gary
16 Hansen also enjoys this perversion of justice. Letting
17 Frank Vennes hand pick who gets to be paid from the
18 victims funds (**his criminal cohort Charles Chase**).

19
20 652. Yet, Doug Kelley doesn't even give victims any
21
22 funds as he arranges with the courts to allow him to
23 get tens of millions of dollars in fees and void 100%
24 the Mandatory Victims Restitution Act. **That's SO WRONG!**

25
26 653. Whereas Doug Kelley gave \$15 million to the
27
28 Minnesota's U.S. Attorney's office instead.

1 654. That MN DOJ Office should be investigated for
2
3 the fact one of their own (J. Lackner) was a brother of
4 a party directly involved in Petters (Marty Lackner).

5 655. The Minnesota DOJ is guilty of THIS cover up!

6
7 656. Tom Petters should get a new trial as Paul
8 Traub flew in and arranged for new ownership of the
9 Fingerhut entity, just before the FBI raid.

10
11 657. Speciously, the Minnesota federal courts sold
12 Polaroid to the 2nd highest bidders and told the likes
13 of Thane Ritchie to go such wind; as Paul Traub wound
14 up with Polaroid for FREE as partners of Gordon Bros.

15
16 658. As proof of grand schemes designs, Gordon
17 Brothers (**with a specious Tax Home of Jupiter Florida**)
18 obtains its liquidation seeding by Polaroid's Ed Land!

19
20 659. In Delaware, no one mentions the words of
21 "*Judicial Immunity*"; but that is exactly what Romney, Traub,
22 Barry Gold, Michael Glazer, MNAT, Greg Werkheiser, Bain
23 Capital and Goldman Sachs are benefiting from.
24
25

26 660. The DE BK Ct refuses to permit anyone to point
27 out the organized crimes and/or address them; because
28

1 "Dealaware" might then lose its Big Fee Bankruptcy case
2 business and/or Corporate Dominance.

3
4 661. The fact of the matter remains that Romney
5 lied to the entire country on his Campaign Finance Form
6 to hide the specific 1999 to 2001 era of crimes; after
7 boasting he gets millions of dollars yearly from Bain.
8

9
10 662. Hence, it is irrefutable that Romney has benefited from the many acts
11 of RACKETEERING directly.

12
13 663. Plaintiff intends to place Romney on the stand
14 and seeks to learn how much of the RICO monies were
15 received, declared and/or placed Off Shore.

16
17 664. The Despots and RICO Defendants are staunchly
18 hiding their Bain Capital co-links to each other.

19
20 665. Each and every time evidence arose that Paul
21 Traub, Barry Gold, Greg Werkheiser/ MNAT have failed to
22 disclose their links to Romney/Bain/ Kay Bee/ Glazer,
23 the Racketeers sought to cover up these facts in an
24 Obstructive manner.
25

26
27 666. Betrayers of the public's trust includes the
28 Region 3 U.S. Trustee, who was also EOUST GC. Along

1 with her despotic cohort Mark Kenney who assisted the
2
3 RICO gang so much that DOJ Deputy Director Lawrence
4 Friedman over the EOUST tucked tail and ran from the
5 RICO. While at the same time Colm Connolly was selling
6
7 out his country (in the hopes of becoming a federal justice) and the
8 Public Corruption Task Force was SHUT DOWN. As the SEC
9 destroys case files and Scott Bloch betrays his country
10
11 too; but refuses to do even 1 month in jail. PROSECUTE the DESPOT!

12 667. Even in the Kay Bee Toys case Mark Kenney had
13
14 the evidence stricken and expunged from the record (as
15 is permanently archived in Kay Bee Toys D.I. 2228).

16 668. Now the RICO Defendants are openly pulling
17
18 more crimes in eToys and NY Sup Ct Goldman Sachs cases.

19 669. Plaintiff will seek both Temporary & Permanent
20
21 Restraining Orders to stop the eToys bankruptcy and NY
22 Supreme Court case of eToys v Goldman Sachs closings.

23 670. Hopefully this court will help litigant find a
24
25 way to get those other courts to acknowledge the FACTS
26
27 in the case (like Goldman Sachs suing Goldman Sachs to
28 settle hundreds of millions in fraud for a minor \$7

1 million slap on the wrist cost of doing business) that

2
3 MNAT, Greg Werkheiser, Paul Traub and Barry Gold are
4 all connected to Bain/Sachs when the parties negotiated
5 the reduced prices of eToys assets to Bain (when Romney
6 WAS CEO) and Kay Bee (when Glazer WAS CEO).
7

8 671. That's an issue of **Bankruptcy Fraud** that WILL
9 bring this whole house of untenable cards down upon the
10 RICO Defendants and autocrats as soon as any decent
11 public servant looks at the black & white issues.
12

13
14 672. All this court needs do to effectuate justice
15 is point out that Bain's bane is plaintiff's evidence
16 proofs. That the Defendants are all connected to Bain
17 Capital in 2001; and that they obstructively seek to
18 hide/Cover up this immortalized fact from examinations.
19
20

21 673. No matter how many bad faith parties bark at
22 plaintiff. No matter how many times the "Dealaware"
23 Bankruptcy Court may seek to help the organized crooks
24 punish plaintiff, in determinations of rewarding
25

26 conflicted attorneys who SELL OUT their clients. The
27 FACTS remain the Defendants are hiding Bain ties.
28

1 674. Paul Traub, Barry Gold, MNAT/Greg Werkheiser

2
3 all are continuously failing to disclose their obvious
4 conflict of interest to Bain/Kay Bee; at the direct
5 material adverse harm of their court approved clients.

6
7 675. And that ain't Right - it is Bankruptcy Fraud!

8 676. Bankruptcy Fraud and Intimidation/Retaliation
9 of this victim/witness, with the bogus contention that
10 CLI 'waived' its \$3.7 million claim; are "predicate acts" of
11 the RICO Act statutes under 18 U.S.C. § 1961.
12

13
14 677. Even now, the "**boss**" Romney is still flexing
15 his illicitly muscles each and every place he is able.

16
17 678. A few weeks ago litigant was in La Jolla, just
18 before the filing of the initial RICO Complaint, in an
19 effort to help anxious citizens on Romney's land grab.
20

21 679. It appears that Romney's money & power makes
22 right over the Law again. Anthony Ciani tried to get
23 the (apparently intimidated) California Coastal
24 Commission to simply take a **proper** look at the fact
25

26 that Romney is nabbing public beach property as his
27 own, so he can build a bigger home.
28

1 680. If any federal official took a look at these
2 crimes that makes John Gellene's "*In re Bucyrus*" Fraud
3 look likes child's play; perhaps justice will come.
4

5 681. Plaintiff reached out to Stephen Biskupic who
6 prosecuted the John Gellene case. Being that it does
7 appear to be "conflict of interest rocket science" to
8 all the bright minds in the **Deal**aware federal system of
9 justice. Perhaps this court could persuade Stephen
10 Biskupic to put on his badge of honor one more time.
11
12

13 682. District Court Justice Tucker said of the case
14 In re Matrix Technology Group ("M.T.G") that courts
15 have a DUTY to address fraud on the court issues.
16
17

18 683. When the powers that be pressured His Honor to
19 soften his stance, His Honor reiterated his opinion and
20 posted it with a very Bold - **FOR PUBLICATION!**
21

22 684. Plaintiff is not the problem here. Autocrats
23 betraying the public's trust are responsible for the
24 fact that Traub got away 'Scot Free' in 2005. This
25 helped foster greater material adversity vis-à-vis the
26 Marc Dreier fraud and Tom Petters Ponzi scheme.
27
28

1 685. Robert Alber is not wrong for making efforts
2
3 to protect his eToys shareholders rights. Despots, bad
4 faith adjudications upon the merits and Johann Hamerski
5 are part of the reasons why Alber had to shoot and kill
6 Michael Sesseyoff after Robert was threatened. With,
7 apparently, his life time friend Gary Ramsey having
8 been **bribed** to abandon his friends to their mendacity.
9

10
11 686. There's nothing wrong with the Code & Rule of
12 Law either. It clearly states what is right and wrong
13 here. As recently stipulated by the New York District
14 Court in the Host Hotels case against the proven firm
15 of Boies Schiller. Where that U.S. District Justice,
16 the Honorable Colleen McMahon stated "A clearer conflict of
17 interest cannot be imagined. A first year law student on day one of an ethics course
18 should be able to spot it". But the "Dealaware" federal realm of
19 justice appears to be bereft of such innate ability.
20

21
22 687. What is a litigant to do when a CHIEF Justice
23 and the United States Trustee both cite the case of In
24 re Hazel Atlas Glass and the DE BK Ct quotes the right
25 premise in its OPINION (that it took 6 months to write)
26
27
28

1 - that it would be wrong to punish plaintiff and reward
2 conflicted attorneys. But that very same CHIEF Judge
3 rules that plaintiff waived his rights to approximately
4 \$3.7 million in fees to parties who confessed lying
5 under oath to the same CHIEF Justice 33 times!
6
7

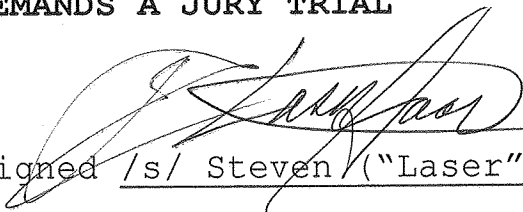

8 688. In the story "Judge: Justice Dept Silence Aided Fraud" it
9 details eToys is not the only case of fed corruption.
10

11 689. If this is what is going on in the open; how
12 much worse is it behind un-ferreted doors?
13

14 690. Plaintiff pray this court merits justice by
15 addressing issues properly. As it is properly iterated
16 by the Host Hotels court in concluding that [akin to
17 this RICO] case is not ethical rocket science!
